# NucleoDB- Memcached

memcached server using nucleodb as a datastore

- [Installation and Startup](#)

# Installation and Startup

## Installing

### Requirements

- Docker
- Kafka Cluster

### Configuration

#### Environment Variables

```
KAFKA_SERVERS=kafka:29092
```

### Source

<https://github.com/NucleoTeam/NucleoDB-Memcached>

### Docker Image

#### Package Repository

<https://github.com/NucleoTeam/NucleoDB-Memcached/pkgs/container/nucleodb-memcache>

#### Current Version:

```
ghcr.io/nucleoteam/nucleodb-memcache:1a61d6806c38ac0cf2bbf1e824b0303365f7b25c
```

## Starting

```
docker run -e KAFKA_SERVERS=kafka:9092 \  
-p 11211:11211 \  
ghcr.io/nucleoteam/nucleodb-memcache:1a61d6806c38ac0cf2bbf1e824b0303365f7b25c
```
